# Welcome Messages

A huge Black Kites welcome to Renaissance College!

We are delighted that you have joined us here at RCHK as we host the 2015 Green Division ACAMIS Volleyball tournament. It is a privilege for us to welcome all the coaches, athletes and other guests to our college in Ma On Shan located in the New Territories of Hong Kong.

You have spent considerable time preparing for this tournament so please enjoy your time with us. Best wishes to all the competitors from schools across China and Taiwan.

If there is anything that we can do to help make your visit to RCHK or your stay in Hong Kong even better, please don't hesitate to let us know.

Kind regards,

Dr. Harry Brown  
Principal

Welcome to Renaissance College!

I would like to extend a warm and enthusiastic welcome to all the athletes, supporters and coaches joining us this weekend as we host the 2015 Green Division ACAMIS Volleyball tournament. As an IB World School we place great value on the importance of taking every opportunity to engage with students from other countries and other schools, and we are certainly looking forward to meeting you all. We also value greatly the importance of what you learn by your participation on sports teams, particularly competing at this level. Enjoy the camaraderie of both your team mates and your opponents! Play the very best volleyball that you can, and make some fond memories and friends.

I would also like to acknowledge the hard work and commitment of our Athletics Director, Kate Nankivell, new to the role this year.

I hope that you find at Renaissance College a home away from home for a few days at least.

The very best of luck to you all!

Carol Larkin  
Head of Secondary

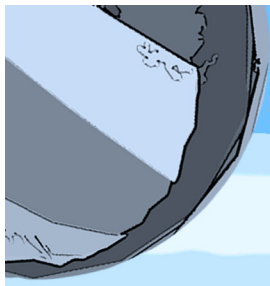

The RCHK community is extremely excited to have the opportunity to host the ACAMIS Green Division Volleyball tournament. We are eagerly awaiting the arrival of our visiting schools and the high class competition to follow.

Not only does the ACAMIS model give our students the opportunity to broaden their horizons from a cultural point of view, it also provides a platform for our athletes to test their skills against other International Schools within Asia.

I would like to take this opportunity to thank our ACAMIS administrator, Libby Yu, our digital artist, Samuel Ng, our catering group Chartwells headed up by Jennifer Yeung, our Red Door team, our Facilities Manager, Vivien Lai as well as our coaches and players, along with all the other teachers and students who have contributed to making this event possible.

We look forward to welcoming our traveling schools to Renaissance College and we wish you all the very best of luck in the tournament.

# Mission Statement

## Vision

Renaissance College (RCHK) is a student-focused international teaching and learning institution. Through a curriculum that is both rigorous and holistic, the college will develop global citizens who strive for academic excellence, appreciate aesthetics and are empowered to take progressive action.

## Mission

**RCHK strives to build a culture that promotes peace and democracy, values diversity and works towards a sustainable future for all.**

## College-Wide Objectives

- Model the International Baccalaureate (IB) Learner Profile to build and sustain relationships with families and colleagues, creating a culture of lifelong learning dedicated to a holistic and international education. This will be measured by observation, feedback from parents and retention of staff and students.
- Implement the IB programmes with fidelity, integrating curriculum, instruction and assessment within and across the PYP, MYP and DP. This will increase student achievement and create a continuum of learning between year levels, as measured by observation as well as formative and summative instruments.

- Provide students opportunities to pursue authentic learning experiences in the local and international community. This will make the curriculum relevant, and service to others genuine, as measured by increased participation in programs and survey feedback from stakeholders.
- Utilize instructional technology tools to increase student achievement. This will actively engage students with the curriculum and one another, as measured by observation and student performance.

## Bedrock Principles

RCHK frames internationalism through its 'Bedrock Principles' to illustrate who we are a College and what we intend to accomplish. These principles include fostering relationships that instill a culture of lifelong learning, implementing a progressive and rigorous curriculum, providing opportunities to actively engage in the school community as well as the local and international community through service and utilizing information technology to enhance student engagement and achievement.
